

Diseased

Saves the Day

Walking down the hall but all the doors are locked inside
Searching for somebody just to stay with for the night Please, help me, please
I let my heart go
I'm dead, I'm diseased
I'll drain my life of sorrow Sifting through the pictures of the ghost inside my mind
Somehow can't forget the times I fail to get things right Please, help me, please
I let my heart go
I'm dead, I'm diseased
I'll drain my life of sorrow Head hangs low
Stare at the telephone
Forget the things you'll never know The night is long
Shadows grow on my wall
I'm calling out, but no ones home Please, help me, please
I let my heart go
I'm dead, I'm diseased
I'll drain my life of sorrow No strength left to scream
Ooh..
