

We Belong

[ATB](#)

Everywhere I fly
Every place I go seems so empty
Every time I try to make this feeling go
Without you I don't know what moves me And I can't find the language
And I can't give you reasons
To memorize the faces that you love [Chorus]
I never thought I'd find what I was looking for
I never thought I'd ever find the place where I belong
I never thought I'd find what I was looking for
I never thought I'd find
Never thought I'd find the place where I belong If I never cry I won't know what hurts me
If I never try I won't
If I never look outside I won't see the rain
Running through the cold and dirty
