

# Roaming Around

Kevin Gates

[Hook]

I've been roaming around, I've been roaming around  
I've been roaming around  
Somewhere up in the clouds, I am flier than 9  
There's nowhere to be found  
I've been roaming around  
I've been round where the rain don't fall  
I've been roaming around  
Ain't for breeze, thos on  
I've been roaming around  
Somewhere up in the clouds, I am flier than 9  
There's nowhere to be found Say I just fucked up a second, and got it back out the jungle  
Meaning I picked up the phone, not afraid to get money  
Shawty with me shining brighter than the lights in the city  
Might now put her in a beamer while my ex in the central  
I'm just doing shit on purpose for them make em look ...  
She look sober and laughing  
Be like baby you miss it  
Talking reckless, disrespect, I'm not afraid to go round it  
If she wanna do it with me, we can get it with muscle  
Nigga talking mind on tossle, but then I'm bout to flush you  
Nigga take a concussion, I ain't on bussin  
I ain't afraid to go bussin, and I don't lay down fuck it  
Niggas know I'm no bindess  
Everyone get it  
If I walk up in establishments, I ain't leaving no witness  
I tie up all the loose ends and I'm going hard  
All day long, avoiding questions asking me  
Why I ain't came home  
Street lights on but I still ain't came home  
Yeah, I hustle all day long [Hook]  
I've been roaming around, I've been roaming around  
I've been roaming around  
Somewhere up in the clouds, I am flier than 9  
There's nowhere to be found  
I've been roaming around  
I've been round where the rain don't fall  
I've been roaming around  
Ain't for breeze, thos on

I've been roaming around  
Somewhere up in the clouds, I am flier than 9  
There's nowhere to be found.
