

# Here to Stay

## Smash Into Pieces

I'm thinking of you,  
Like i always do,  
Dreaming of the times we had, just me and you,  
Never want the dreams to have their end,  
It's breaking my heart seeing you this way,  
But shadows holding you won't make me go away, no,  
I'm here to stay, You are the one,  
That got away,  
Left me here,  
Here to stay,  
The life we had is gone,  
My babe is moving on,  
Leaving me here,  
You left me here to stay,  
I made my mistakes,  
Looked the other way,  
I was sure the sun would shine like yesterday,  
Never heard the things you had to say,  
But now its to late,  
Now there's nothing left,  
That could stop this loneliness,  
This pain, this heart,  
From aching me apart, You are the one,  
That got away,  
Left me here,  
Here to stay,  
The life we had is gone,  
My babe is moving on,  
Leaving me here,  
You are the one,  
That got away,  
Left me here,  
Here to stay,  
The life we had is gone,  
My babe is moving on,  
Leaving me here, And I'm thinking of the times we had,  
It makes me sad,  
That i lost something so dear to me,  
I'll always be a dreamer,

Dreaming of a new tomorrow,  
Where we've found our way, You are the one,  
That got away,  
You left me here to stay,  
You got away,  
Left me here, here to stay,  
The life we had is gone,  
My baby is moving on,  
You leaving me here,  
You are the one,  
That got away,  
Left me here, here to stay,  
The life we had is gone,  
My baby is moving on,  
You leaving me here,  
You are the one,  
The one that got away you left me here to stay,  
The one that got away,  
I am here to stay, You are the one that got away,  
Left me here,  
Here to stay,  
You are the one that got away,  
Left me here,  
Here to stay
