Slim's Night Out

Pillowtalk

I can feel your tenderness
I can feel your love
The only thing I ask from is from you is
Give it up sometimes and feel the love
All I wan to do is get you in the right mood tonight
All i even think about is getting you tonight
Why you playin with my mind and soul
All I feel is if I want to get you in my car tonight
You won't listen to me feel me now
All I want to do is make the things i feel jusy right
You and me together all we got to say
Got to feel your friend baby
Want to to know your girl
Whats up with that short she wearin so cute and I
Got to feel her curl
But I want to feel the pain of fire burning me here tonight
You keep playin with my heart and soul
All I have to do is get you in the right mood out a sight
We can have this thing together baby
