

I Am, I Am

Kobra and the Lotus

Come a little closer, let me tell you who I am
I'm the bleeding bullet hole infecting all the land
Killing off humanity, a craving mouth for war
Burning skies I leave behind for generations more

I am devastation

I am retribution

I am delivering hell

You tell me why

I am, I am all that's inside you

I am, I am evil burning through

I am, I am the seed of your destruction

Self fulfilling prophecy

Look into the glass and tell me what do you see

Is is your reflection or the devil running free

You spread temptation with your pestilence greed

Self-afflicting genocide and endless misery

I am devolution

I am execution

I am condemning us all

You tell me why

I am, I am all that's inside you

I am, I am evil burning through

I am, I am the seed of your destruction

Self fulfilling prophecy

I am the plague of suffering

I am the bane

You are the same

I am, I am all that's inside you

I am, I am evil burning through

I am, I am the seed of your destruction

Self fulfilling prophecy
