

Janine

The Prime Ministers

Written by ricky & marty wilde
Janine - what's going on

Janine - I know that something sure is wrong

There's lights out on the road

And they're searchin' for you
Janine - life wasn't fair

Janine - when you got home and no-one cared

But running from your life

You let the vultures get through

And they feed on you, they feed on you
Chorus:

So what you gonna do when the lights burn out
Janine

What you gonna do when your light burns out
Janine - you want the truth

Janine - you'll find the pressure's now on you

You wanted all the world

But they've taken it all

And they're bleeding you, they're bleeding you
So, what you gonna do when the lights burn out
Janine

What you gonna do when your light burns out
Heh kid, don't hesitate

Don't stick around now

I bet you can hardly wait

Oh what a time I'll give to you

But it's never true
Janine - you'll soon be there

Janine - you're on a wing and a prayer

But angels love their own

And they're reaching out for you
Janine oh Janine
