

Dance, Dance, Dance

Red Hot Chili Peppers

You got yours and I got mine
she got his and she got shine
under moon and overseas
she got those and we got these

Dance, dance, dance, dance,
all night long, yes all night long
dance, dance, dance, dance,
we got strong, as we got strong
we say hello
it's safe to go

Dance, dance, dance, dance,
all night long, yes all night long
dance, dance, dance, dance,
we got strong, as we got strong
the light is right
let's play tonight
let's play

Give yourself a chance
to find a way
The holiness appeared
is here to stay

They got this and we got there
he got his and she got bad
you got mine and I got yours
I got love but you got more

Dance, dance, dance, dance,
All night long, it's all night long
Dance, dance, dance, dance,
We got strong, as we got strong
We say hello
it's safe to go
Let's play

Give yourself a chance
to find a way

the holiness appeared
is here to stay
tell your mom and dad
it's all okay
the holiness appears
it's here to stay

I got another one
I got another one
I got another one
I got another one
Whoa
I got another one

You got yours and I got mine
he got his and she got shine
we got all but she got high
some got hot and then gone by

Dance, dance, dance, dance,
all night long, yes all night long
dance, dance, dance, dance,
we got strong, as we got strong
we say hello
it's safe to go

Dance, dance, dance, dance,
all night long, yes all night long
dance, dance, dance, dance,
we got strong, as we got strong
the light is right
let's play tonight
let's make the ride
the summer thrives
let's play
let's play
