

Burned Me Out

honeyhoney

Oh babe I gotta say
I learned the hard way with you
Yours words like books had me hooked like summer time
Cooking on my mind all the way through
I guess I held on too tight
I broke my fingers on your floor at night and
I lost my faith and my own breath
Who knew that love could feel like death
Its not your concern
All I really learned
Is all your rounds are roundabouts
Oh man they burn me out
You say that God knows a way
But I'm standing in the dark
I soaked you up you wrung me out on your line
Messing up my time in the park
Oh but it's not your concern no
All I really learned
Is all your rounds are roundabouts
Oh man they burn me out
It don't feel good
This goodbye but
I am bye will go, oh
And I won't put it all on you
I am well aware that I caused us trouble too
I won't look back on you with anger no
I won't
Even if you do the same or if you don't
Oh but it's not your concern no
All I really learned
Is all your rounds are roundabouts
Oh man they burn me out
They just burn, burn me out
