

Body I Occupy

The Naked Brothers Band

And in this body that I occupy
I've asked you question that can make you cry
Until you come back and apologize
It's very sinister this land of mine
In this body I occupy
In this body I occupy
In this body I occupy
In this body I occupy
The tension's old and I am trying to say goodbye
And what you told me I will amplify
It doesn't matter that you obviously lied
You only took me to defalsify
In this body I occupy
In this body I occupy
In this body I occupy
In this body I occupy
Time never stops
Oh no, time never stops
And you'll keep coming back in time
Hey, this body
This body
This body
This body
In this body I occupy
In this body
In this body I occupy
In this body
In this body I occupy
In this body I occupy
In this body that I occupy
In this body that I occupy
In this body that I occupy
Body I occupy
In this body I occupy
In this body I occupy
In this body I occupy
In this body I occu
In this body, body, body, oh
In this body I occupy

In this body I occupy
In this body I occupy
In this body I occupy
In this, in this, in this
Body I occupy, body I occupy
Body I occupy
