Some Days

Action Item

Take another picture off of my wall
Take it all down and throw it all
We've been building up for this so long
Some days you can't prepare forI've been holding my tongue
Holding back every word
Everything we used to have is all gone
Some days you can't prepare forSome days i feel the world moving slowly
But it seems like i go nowhere
And some days i think i'll never get through it
But i know i will, some daysNow i'm breaking my back
Find a reason to end everything
Forget whatever we had
One day we could change anythingAnd i don't if the sun will ever
Come back out
Whatever we were,
The day changed everythingSome days i feel the world moving slowly
But it seems like nowhere to go
And some days i feel i'll never get through it
But i know i will, some daysI can't believe the difference a day makes
It hit like an earthquake
I can't believe i put my heart out
It rained like a stormOne day can change everythingSome days i feel the world moving slowly
But it seems like i go nowhere
And some days i feel like i'll never get through it
But i know i will, some days
Some day, some day, some days
