I Might Be Giants Too

They Might Be Giants

They might be giants
This world might go too far
I should be saving those tears
I need to know, so won't you care, do you? (they might be giants)
This world might go too far

I should be saving those tears
I need to know, so won't you care, do you? (they might be giants)
This world might go too far
I should be saving those tears
I need to know, so won't you care, do you? (they might be giants)
I might be giants, too
