

Naked

Tully On Tully

Stay with me
While we feel the need
To escape from this, no need,
No need to watch it Break away
From this manic phase
You will have to stay when I
When I get through to You and I could never really make it
But you know I, oh I look better naked All I can give you is all that I've got
I've got nothing to hold you away from the dark if you leave Hold your ground
While you wonder how
It is only now that you,
That you would warm to Me and you
Is a fading truth
That was never new I gave
I gave it all to You and I could never really make it
But you know I, oh I look better naked All I can give you is all that I've got
I've got nothing to hold you away from the dark if you leave All I can give you is all that I've got
I've got nothing to hold you away from the dark Something inside you is leading me blind
I am searching for why you would leave me alone in the dark
