No Easy Way Out

Bernard Butler

Time alone has informed me
That there's no easy way out for me
No, no easy way outJust like a film without a story
We dreamt of rain without clouds
And wild country
But then our luck just ran outNow there's no easy way out
There's no easy way out
No release when we're downI tend to frighten all too easy
But there's no need
When you tower beneath me
Often sweet never sourBut time alone has just confused me
So we kept dreaming about
What should have been ours
Just so pleased when you're aroundBut there's no easy way out
No, no easy way out
No release when we're down
Believe me nowThere's no easy way out
No, no easy way out
No release when we're down
No easy way outThere's no easy way out
No, no, no easy way out
No release when we're down
Believe me nowThere's no easy way out
No, no, no easy way out
No release for us now
No easy way out
