

Black Vultures

[Daniel Norgren](#)

I got no place to go, but I dont wanna go anyway
Til the day I die I guess this is just how it will stay

Black vultures in the air

Black vultures in the air

I like to ride old-pick-up trucks
For a while it takes away the feeling of beeing stung

Black vultures in the air

Black vultures in the air

At night I get drunk and think of a girl that I know

I sleep in my clothes and I wake up alone

Black vultures in the air

Black vultures in the air

Ahh, black vultures in the air

Black vultures in the air
