

# Fighting Gravity

Caleb Johnson

    Patiently discovering you  
    All the things you ever wanted to  
    A masterpiece came into view  
A perfect picture that you tore in two So dark when we've lost our way  
    Way out here in outer space  
    The memories are all I've saved tonight  
    You flew me to the highest highs  
    Never thought you would ever quit on me  
And I can't stop falling there's no fighting gravity whoa  
    And I'm crashing through the atmosphere  
    Without you I'm gasping it's hard to breathe  
And I keep on stalling there's no fighting gravity Patiently I wait for you  
    Drifting by the dark side of the moon  
    Breaking me you're shatter proof  
How can you forget what we've been through So dark when we've lost our way  
    Way out here in outer space  
    The memories are all I've saved tonight  
    You flew me to the highest highs  
    Never thought you would ever quit on me  
And I can't stop falling there's no fighting gravity whoa  
    And I'm crashing through the atmosphere  
    Without you I'm gasping it's hard to breathe  
And I keep on stalling there's no fighting gravity I saw a sign from the other side  
    I let you go and it left me weightless  
    Down below I heard you say  
    Crashing through the atmosphere  
    Without you I'm gasping it's hard to breathe  
    And I keep on stalling there's no fighting  
    No there's no fighting  
    You flew me to the highest highs  
    Never thought you would ever quit on me  
And I can't stop falling there's no fighting gravity whoa  
    And I'm crashing through the atmosphere  
    Without you I'm gasping it's hard to breathe  
And I keep on falling there's no fighting gravity Patiently discovering you  
    All the things you ever wanted to
