

Always the same

The Mary Onettes

There's a young girl working the corner

There's an old man lost at sea

They could tell you a million stories

About the wrong side of the street

There's a rich man making money

From a poor man's misery

It's always the same

Always the same, fight for survival

Whatever we do today

Don't make tomorrow the same

Fight for survival

Forget about yesterday

Don't make tomorrow the same

There's a runaway looking for shelter

An innocent heart that bleeds

There's a blind man playing for pity

Says it's the only way to make ends meet

And he's living of his hard luck story

Says he's a victim of society

It's always the same

Always the same, fight for survival

Whatever we do today

Don't make tomorrow the same

Fight for survival

Forget about yesterday

Don't make tomorrow the same

The seasons come and go

And all the questions of why

How will we ever know if we never try?

Always the same, fight for survival

Whatever we do today

Don't make tomorrow the same

Fight for survival

Forget about yesterday

Don't make tomorrow the same

Fight for survival

Whatever we do today

Don't make tomorrow the same

Fight for survival
Forget about yesterday
Don't make tomorrow the same
Fight for survival
Whatever we do today
Don't make tomorrow the same
Fight for survival
Forget about yesterday
Don't make tomorrow the same
Fight for survival
Whatever we do today
Don't make tomorrow the same
Fight for survival
Forget about yesterday
