

Rotation (feat. Wiz Khalifa & 2 Chainz)

Wale

Ooh, trying to stay in my zone
Watching enemies close
They be doing the most
So I go through the motions yeah
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Good head is my motivation
Gas her up like a service station
Purple drank on you perpetratin'
While you perpetrating, I'm renegotiatin' ah
Let me think about it (Let me think about it)
Ah, it's like a bank around me
When the soldiers with me it's like a tank around me
And I don't like niggas saying "can't" around me
I define the odds, 2 Glock nines is my body guards
Ain't nothing slick to a can of oil
Roll up, I'm high as fuck
Some of you niggas ain't try enough
Some of you niggas ain't buy enough
You smoking good, put your lighters up
Ooh, trying to stay in my zone
Watching enemies close
They be doing the most
So I go through the motions yeah
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
A nigga like me don't smoke blunts so I keep them joints in rotation
Bad bitches calling the radio, keep my joints in rotation
Keep throwing money on her ass, she keep that joint in rotation
First I'm in a car and then another car, I keep them joints in rotation
And I'm hella faded, getting elevated
She give me them good brains, I'm getting well educated
Soon as them hoes see my car, they wanna jump right in
If you see my crib, you would think I was Malibu Ken
Pour a shot or two of gin, gon' invite a few friends
We done tried a few things now you tryna move in
You ain't gotta dude and so I got a few fans
I'm a roll a few grams and follow through with the plan, hold up

Pour some gin in her cup, she taking shots
Bend her down to the front, she taking shotsOoh, trying to stay in my zone
Watching enemies close
They be doing the most
So I go through the motions yeah
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five bluntsHold it, one more to get my lungs warm
Two more to get me numb to it
Let me tell you niggas feel this, he'll realize
I gotta deodorize all the unsure
Made millions with Shawn Corey
Chief a lot, shout out Reese and them
Shout out, Gleesh and Lil Meatchi
And peach Ciroc, can't see a nigga writing like an old sharpie
Like a nigga out the globe, with a nigga throwed
Like a cornerback in the flat, nigga in the zone
Like an ornament on a tree, home in the tree
How you gonna eat? Carnivores need beef
Well I need beats
Been doing this, been proving it
Now these niggas give it up like they do at Lent
I just be like "Yep!" then I get a rest
Haters trying to fuck with me, give 'em nuts like a stewardessOoh, trying to stay in my zone
I ain't ready to go
And I thought I was on
'Til I seen Puffy Combs (What up Puff)Hold up, five blunts, nigga fired up
Nigga might slide off with y'all joint
I got some later joints, and now joints
I got emergency hoes, like firetrucks
You a wannabe clone, you never authentic
You never boss up, we never see y'all out
You be frontin' too hard, you ain't viagra
You just wanna be hard 'til you see all us, hoOoh, trying to stay in my zone
Watching enemies close
They be doing the most
So I go through the motions yeah
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five blunts
Five blunts in rotation, five bluntsHold it ooh, trying to stay in my zone
Watching enemies close
They be doing the most
So I go through the motions yeah
