Let's Stay Inside

Ivy

Thunder and lightning
Isn't it frightening
Rainy day morning
Feels like a warningLet's stay inside
Like the sun we will hide 'til it's safe again
Let's stay inside
'Til the city has dried all its tears againUnder the weather
Feels like forever
Can't see the skyline
Daytime is nighttimeLet's stay inside
'Til the gray in the sky turns to blue again
Let's stay inside
And disappear for a while 'til its clear again'Cause I know, it won't last
We've got to let it pass
Take it slow, laying low
Until the time is rightThunder and lightning
Isn't it frightening
Rainy day morning
Feels like a warningLet's stay inside
Like the sun we will hide 'til it's safe again
Let's stay inside
'Til the city has dried all its tears again
