Stay

Carmen Rodgers

People change, they grow apart
So unpredictable matters of the heart
But you and I are cut from a different cloth
Don't let my failure be our fall

I made a mistake, don't let it end
Any price I will pay, my life I'll spend
To get another chance, swim a thousand seas
Please don't go away, just stay with me

Don't walk away, don't walk away
Stay with me, don't leave
Don't walk away, don't walk away
Stay with me, don't leave

You and me, we were built to last
Lean on our future, let go the past
No fairy tales, this is my appeal
One thing remains and that's how we feel

I made a mistake, don't let it end
Any price I will pay, my life I'll spend
To get another chance, swim a thousand seas
Please don't go away, just stay with me

Don't walk away, don't walk away
Stay with me, don't leave
Don't walk away, don't walk away
Stay with me, don't leave

Don't turn away, it's not too late
Don't turn away, it's not too late

Don't walk away, don't walk away
Stay with me, don't leave
Don't walk away, don't walk away
Stay with me, don't leave
