I Swear

The Loved Ones

I've been breaking promises in the dark
You've been doubting everything in the time we spend apart
We knew this was a gamble from the start
We've been trying everything just to keep our hearts

If it all burns down, if it all just blows away

I swear I'll love you till the end
If it all burns down and you don't come around
I'll be your friend

I'm sweating all alone here in the dark
Are you sleeping soundly all the nights we spend apart?
We knew this was a gamble from the start
And now I'm trying everything just to keep your heart

If it all burns down, if it all just blows away

I swear I'll love you till the end
If it all burns down and you don't come around
I'll be your friend

I swear I'll love you till the end
If it all burns down and you don't come around
I'll be your friend

I'll love you till the end
I'll love you till the end
I'll love you till the end

I'll love you till the end
I'll love you till the end
I'll love you till the end

What I live and what I learn
What we build and what we burn
I'll love you till the end
I'll love you till the end

I'll love you till the end

I'll love you till the end

What I live and what I learn
What we build and what we burn
I'll love you till the end
I'll love you till the end

I'll love you till the end
