

# Straight to Your Heart

John Waite

I can't reach behind your eyes  
You always look away  
You hide behind your alibis  
And change your mind  
From day to day If there's something I can do  
Then I'll be there  
Outside your broken world  
You'll see it's me who cares Take me straight to your heart  
'Cause this time's real  
And real lasts forever  
I know where you are  
'Cause you know  
I've been there before  
Straight to your heart I watch you move  
And I watch you dance  
I watch you drift away  
And I'd give anything for you  
And you know that's bad  
When it gets that way You can't go on like this  
And I don't wanna fight again  
I don't give a damn anymore  
Right or wrong you're gonna let me in Straight to your heart  
'Cause this time's real  
And this time forever  
I know where you are  
'Cause baby I've been there before Straight to your heart  
This time, this time  
Baby I know where you are  
'Cause you know I've been there before  
Then maybe I'll break down the walls  
And my love will go  
Straight to your heart Inside  
Take me inside, yeah Straight to your heart  
'Cause this time's real  
And real lasts forever  
I know where you are  
'Cause this time, we're goin' all the way  
Straight to your heart  
This time, this time Baby it's straight

Yeah, yeah, yeah, yeah  
This time it's straight to your heart  
Oh yeah  
'Cause this time it's real
