

Mother of Earth (feat. The Gun Club)

The Gun Club

I've gone down the river of sadness
I've gone down the river of pain
In the dark, under the wires
I hear them call my name I gave you the key to the highway
And the key to my motel door
And I'm tired of leaving and leaving
I can't come back no more Oh, my dark eyed friend
I'm recalling you again
Soft voices that speak nothing
Speak nothing to the end Oh, Mother of Earth
Blind they call
But yet, stay behind the wall
Their sadness grows like weeds
Upon my thighs and knees
