

# One Way Up

[Michael Sweet](#)

I remember walking the wrong side of the tracks as a kid  
Always looking for trouble in everything that I did  
There was right and there was wrong, but I just didn't care at all  
'Til I climbed so high and soon I began to fall  
There's one way up, one way down  
One way through and one way around  
One way above and one way under the ground  
Follow the leader we've all been there sometimes  
And we've heard the deceivers and believed their evil lines  
But there's free will and it's a choice, yet we don't always make it right  
It's not always so easy, sometimes it's a bloody fight  
There's one way up, one way down  
One way through and one way around  
One way above and one way under the ground  
There's one way to live, one way to die  
One way below and one way up high  
One way to wrong and one way only to right
