

Ascend

Jarboe

When I first saw you
You were without love
But your fingers reached
So I just moved in Tell me what I'm doing here
Tell me what I'm doing here To my surprise I kissed you
You made me rise
Now by my side I've missed you
And let it slide Tell me what I'm doing here
Tell me what I'm doing here If all I ever wanted wasn't good for you
If the things that I said, they just weren't true
Ascend, ascend my friend I turned my head and looked back
I had been led
When my heart jumped, we lost touch
Our love had slumped Tell me what I'm doing here
Tell me what I'm doing here If all I ever wanted wasn't good for you
If the things that I said, they just weren't true
Ascend, ascend my friend I can see you looking down to keep away from me
But I'm stuck with this lack of ability
I can't refrain from coming here
It causes pain, you're so sincere
Ascend, I must ascend So now alone
I find out your heart is stone
A helping hand
There is none from where I stand Tell me what I'm doing here
Tell me what I'm doing here If all I ever wanted wasn't good for you
If the things that I said, they just weren't true
Then don't restrain from telling me
That all this pain is good for me I can see you looking down to keep away from me
But I'm stuck with this lack of ability
I can't restrain from coming here
It causes pain, you're so sincere
Ascend What am I doing here?
Tell me
I must ascend
Tell me
Tell me
What am I doing?
What am I doing here? Tell me
I must ascend, ascend

Ascend
Tell me
Tell me
What am I doing?
