

# Oxygen

## Granger Smith

She is the lighthouse on my sea  
I locked my heart, she found the key  
She's what this feeling suppose to be  
She speaks the love that I believe  
No, I don't ever make a move, without her right there too

She's in the breath that I breath  
She's in my heart when it beats  
She's my life and I take her in, like oxygen

I've got her touch memorized  
But I still get lost inside her eyes  
When you know you know its no surprise  
Ah, But it took her for me to realize  
No I don't ever want to be  
Without her with me

She's in the breath that I breath  
She's in my heart when it beats  
She's my life and I take her in, like oxygen

The half that makes me whole  
The reflection of my soul

She's in the breath that I breath  
She's in my heart when it beats  
She's my life and I take her in, like oxygen

She's my oxygen
