

Rumbling

Young Fathers

I'm patiently living with an impatient nature
Diagnosed case can you predict the danger
Overseas breeze n whips and hard labour
Thingamajiggy she's known to toss the caber
Turbulence influence the elegance
Its evident the teacher has no relevance
Nothing is original, that's what's original
Started off in analog ended up in digitalWo-woh uh wo-woh uh
It's rumbling, it's rumblingIt's all squares and neat lines, organized dinner times
Celebrating grace feeling naked on the outside
Yeah she's beautiful but she's useless
Rusty and toothless while hell burns roofless
A beggars belief I'm looking down
There must be some survivors around
A young man drops onto the ground
The kids don't sleep in this townAs I project an image of a crooked menace
With a broken halo that was caged by his tenant
If nothing else works keep taking the placebo
Built like an ox and delicate as a feather
Recommend a beast to make love to an Arian
Dilute the blood that was brought by a concubine
Retrace the steps if you're looking for the dynamite
Part-time addict her dreams make her cry at nightWo-woh uh wo-woh uh
It's rumbling, it's rumblingWhite boy beat, black boy rhythm
Here's an ultimatum the way that momma made em
I canny get near em the card that you were dealt
Sipping on the serum is bad for your health
Ha, I just got yi telt
So dae what yir telt
