

# Girlfriend

## Phoenix

Tired out, not a miracle in days  
Deciders for the lonely whispering tears  
You try out for nothing then you drop dead, not a miracle in years  
Leisure for the lonely whispering unnecessary unless you're in Die and succeed  
I say it out loud but you just don't care  
Farewell, well, well, well, well, well, well 'til you know me well  
Farewell, well, well, well, well, well, well 'til you know me well  
Girlfriend We are far from home, I am with you now  
I'm am longing you, I am longing us two  
Who bought a miracle sells these fortune tears December's death or glory how you want it?  
No, not a miracle in years  
Deciders for the lonely wishing death wishes death unless Die and succeed  
I say it out loud but you just don't care  
Farewell, well, well, well, well, well, well 'til you know me well  
Farewell, well, well, well, well, well, well 'til you know me well  
Girlfriend Die and succeed  
I say it out loud but you just don't care  
Farewell, well, well, well, well, well, well
