

The Best Thing

Boom Crash Opera

I put my spacesuit on
Count back 10 to one
The gravitation pull gets stronger
Oh

My skin it burns away
My veins are all ablaze
The way its feeling it is bliss
As I fly over you

Watch out am I the view?
I contemplate the lies and secrets

This is the best thing that has ever happened to me
These are the colors that I've always wanted to see
And although I've never said it before
I love you, I need you, I need you, I love you

Now I'm embracing you
From the highest altitude
The telescopes our friends they watch us
These heights are dangerous
From here I can see why
Our astronauts retire early

This is the best thing that has ever happened to me
These are the colours that I've always wanted to see
And although I've never said it before
I love you, I need you, I need you, I love you

Oh oh oh oh hey hey etc

This is the best thing

Oooh

This is the best thing that has ever happened to me
(this is the best thing)
These are the colours that I've always wanted to see

This is the best thing that has ever happened to me

These are the colours that I've always wanted to see

This is the best thing that has ever happened to me

These are the colours that I've always wanted to see

And although I've never said it before

I love you, I need you, I need you, I love you

Best thing

This is the best thing

This is the best thing

This is the best thing

I love you, I need you, I need it, I love you
