Whatever You Became

Cold

Whatever you became
Blame it on my fame
I'm aways away from you
Sold my life for a song
Whatever you killed
The blood got on my face
See it took over you
And your minds nearly goneAnd I can't change my ways
Sorry it's my fault
I wasn't there to see
Whatever you became
Whatever you becameWhatever you became
You blame it on blind faith
I can't turn away from you
What's my life if your gone
Whatever you feel
I take it on my stage
I sing to the world for you
And I'm always aloneAnd I can't change my ways
Sorry it's my fault
I wasn't there to see
Whatever you became
Whatever you becameI can see it all
You're so far away
I can't take this anymore
I can't live until I see your faceI can see it all
You're so far away
I can't take this anymore
I can't live until I see your faceAnd I can't change my ways
Sorry it's my fault
I wasn't there to see
(Sorry it's my, sorry it's my)
And I can't change my ways
(And I can't change)
Sorry it's my fault
I wasn't there to see
Whatever you became
Whatever you becameWhatever you became
(Somethings gone away)

(You've taken this from me)
Whatever you became
(Until I see your face)
(And I'm slipping away)
