

Christine

Big Walter Horton

Hear her coming 'bout 5 miles away
That girl is something, know she gonna make my day
 Ah, she is so fine, a real good friend of mine
 I just wanna jump her bones all the time
 See her walking, she knows all the moves
 Fortune cookie, send your toes up in your shoes
 Oh, you can't believe what she got up her sleeve
 Likes me fine and that's just fine with me
 Christine, going out of my mind, like to drive me wild
 Red hot mama, ain't no lie, so glad I caught your eye
Christine, you put your hands on me, I got electric blood
Come on over and do it again, just like a bad girl should
 She moves like a rattlesnake made out of razorblades
 That girl can't help it, just the way she's made
 I would run all 'round the world, just to see that girl
 She sure loves playing with the 'Ace of Spades'
Christine, drive me out of my head, like to drive me wild
 Red hot mama, ain't no lie, so glad I caught your eye
Christine, you put your hands on me, I got electric blood
Come on over and do it again, just like a bad girl should
Christine, drive me out of my mind, like to drive me wild
 Red hot mama, ain't no lie, so glad I caught your eye
Christine, you put your hands on me, I got electric blood
Come on over, do it again, just like a bad girl should
 Christine, Christine
 Christine, I just wanna jump her bones
 She's my baby
