

Did It Again

Casey Donovan

I gotta keep running now,
I gotta keep moving now,
I can't slow down.
Everything don't feel so right
couldn't get much sleep last night
all I've been feeling is confused
now everything is such a blur
I'm losing touch Catch me before I
lose my grip and I'm left wondering why
I did it again oh yeah yeah Oh no I've done it again
will this ride ever end?
I don't know anymore
I know it hurts you too
I'm playing you for a fool
you don't deserve this hurting you Maybe I should get some help
maybe I should help myself Catch me before I
lose my grip and I'm left wondering why
I did it again
Catch me before I
lose my grip and I'm left wondering why
I did it again Are you worried?
am I on your mind?
If I fall would you help me back up? (Catch me before I fall)
(Catch me before I fall)
(Catch me before I fall)
(Catch me before I fall) Catch me before I
lose my grip and I'm left wondering why
I did it again
Catch me before I
lose my grip and I'm left wondering why
I did it again
