Did It Again

Casey Donovan

I gotta keep running now,
I gotta keep moving now,
I can't slow down.
Everything dont feel so right
couldn't get much sleep last night
all I've been feeling is confused
now everything is such a blur
I'm losing touchCatch me before I
lose my grip and Im left wondering why
I did it againoh yeah yeahOh no I've done it again

will this ride ever end?

I dont know anymore

I know it hurts you too

I'm playing you for a fool

you dont deserve this hurting youMaybe I should get some help maybe I should help myselfCatch me before I

lose my grip and Im left wondering why

I did it again

Catch me before I

lose my grip and Im left wondering why I did it againAre you worried?

am I on your mind?

If I fall would you help me back up?(Catch me before I fall)

(Catch me before I fall)

(Catch me before I fall)

(Catch me before I fall)Catch me before I

lose my grip and Im left wondering why

I did it again

Catch me before I

lose my grip and Im left wondering why

I did it again
