Devin the Dude:
*i see your pussy lips smilin
been grinnin like they want somethin up in 'em
wanted to ask you for some
but didnt want to offend you
but now i see
you bout as freaky as me
i busted two nuts already
now you waitin for number three
you ask me what will it take to get me hard again
i say saliva
but see you aint down for swallowin
you'd rather have it on your skin
you wanna rub it in

move your tongue like that once more
girl im bout to nut again
fuck your friends
in your business
askin why i call everyday
and why your face is so clean
just tell 'em oil of olay
i thought i could run a good race
but girl you could do miles
lay on your side
raise up your legs
let me see that beautiful smile
awww yeah
imma put it all in there
and you relax
but then you ask me to pull your hair
then i'll do it
you'll scream
but the nut wont last
cause right before you know it
