

Together

Gabrielle Aplin

We fit together-gether together-gether so well
Ooh ooh
But when we fall apart
There's something missing I can tell
Ooh ooh
We fit together-gether, together-gether so well
Ooh ooh
But when we fall apart
There's something missing I can tell
Ooh You go to see the ocean
You say the king's alive
You live life in motion
I like to take my time And you don't like to talk about it
Why do we fight
Why do we fight every night?
When we fit together-gether, together-gether so well
Ooh ooh
But when we fall apart
There's something missing I can tell
Ooh ooh
We fit together-gether, together-gether so well
Ooh ooh
But when we fall apart
There's something missing I can tell
Ooh ooh I'm not looking for redemption
I don't wanna see the light
All I want is your attention
All I want is, all I want is love
Ooh
I don't think you can deny me
Let's go smoke and make a fire
But you don't like to talk about it
Why do we fight
Why do we fight every night? When we fit together-gether, together-gether so well
Ooh
But when we fall apart
There's something missing I can tell
Ooh ooh
We fit together-gether, together-gether so well

Ooh ooh
But when we fall apart
There's something missing I can tell
Ooh
