

Battery

Myah Marie

i don't mean to shock you i've been putting to turn you on,
electrical reaction you'll be hooked like a chemical.
..and i giggle on and on,
on and on, on, on, on!gonna shoot the frequency, you need me to recharge the night
tonight, tonight, tonight!
music is the battery connecting our love
tonight, tonight, tonight!chorus:
you need a battery,
i'll bring the energy on and on, and on!
you need a battery,
i'll be the remedy on and on and on!
we need a ...let's ...
you'll be the view and i'll be your battery,
i'll be your battery, battery!
we need a ...let's ...
you'll be the view and i'll be your battery,
i'll be your battery, battery!i'ma fly out of space, so just fill the hell of it!
take away the oxygen i'll bring a new element!
i don't need accessories to keep moving on and on, on and on
on and on, on and on!gonna shoot the frequency, you need me to recharge the night
tonight, tonight, tonight!
music is the battery connecting our love
tonight, tonight, tonight!chorus:
you need a battery,
i'll bring the energy on and on, and on!
you need a battery,
i'll be the remedy on and on and on!
we need a ...let's ...
you'll be the view and i'll be your battery,
i'll be your battery, battery!
we need a ...let's ...
you'll be the view and i'll be your battery,
i'll be your battery, battery!
restart my part,
i've got my eye on you!
i own you!
restart my part,
i've got my eye on you!
i own you!chorus:

you need a battery,
i'll bring the energy on and on, and on!
you need a battery,
i'll be the remedy on and on and on!
we need a ...let's ...
you'll be the view and i'll be your battery,
i'll be your battery, battery!
we need a ...let's ...
you'll be the view and i'll be your battery,
i'll be your battery, battery!
