The Set-Up

Zebrahead

Lie to me
Tell me that everything will be alright
Whoa, lie to me
Don't say it didn't mean anything
1 2 3 goI should've known when my kicks
Crossed the hinge on your door
That you had something more in store
Implore do not push my back to the wallThis is a set up
Rush adrenaline
Fake, phony, fed up
Bass, alkaline
This is a set up
Waste everything
This is a set up
Set upYou never told me
'Til the pressure started building
You never told me
I was wrong
I was right
I was right
You never told me
'Til the building started shaking
Now I'm surrounded on all sidesLie to me
Tell me that everything will be all right
Whoa, lie to me
Don't say it didn't mean anything
Lie to meKilling joke 'cause your smile was the calm to the storm
And the ties that bind have been torn
I said, "Do not push my back to the wall"
Do not push my back to the wallThis is a set up
Rush adrenaline
Fake, phony, fed up
Bass, alkaline
This is a set up
Waste everything
This is a set up
Set upYou never told me
'Til the pressure started building
You never told me

I was wrong
I was right
I was right
You never told me
'Til the building started shaking
Now I'm surrounded on all sidesLie to me
Tell me that everything will be all right
Whoa, lie to me
Don't say it didn't mean anything
Lie to meYou take this for granted, right
And I never wanted anybody else
You take this for granted, right
And I never wanted anybody else
You took this all for granted
You took it all for
You took this all for granted
You took it all, took it allLie to me
Tell me that everything will be alright
1 2
1 2 3 go
