

# Into the Wild

Johnossi

In the wild I see no roses  
In the wild I feel no pain  
I'm alive, but I am broken  
I'm alive, but I'm ashamed  
It's a stormy, cloudy winter  
I'm gonna leave without a trace  
Are you longing for the summer?  
I want something to embrace  
But what was the deal, now?  
And was it for good?  
And how does it feel, now?  
And what do you know?  
We're going into the wild  
They ain't going to wait until tomorrow  
They ain't going to wait until it's done  
They don't care about your sorrow  
Keep on running til you're numb  
But what was the deal, now?  
And was it for good?  
And how does it feel, now?  
And what do you know?  
She said to me when you fall,  
you're going nowhere at all  
And all the places we've been,  
you know they don't mean a thing  
You're going into the wild  
Into the wild  
We're going into the wild  
Into the wild  
In the wild I see no roses  
In the wild I feel no pain  
I'm alive, but I am broken  
I'm alive, but I'm ashamed  
And what was the deal, now?  
And was it for good?  
And how does it feel, now?  
And what do you know?  
We're going into the wild  
Into the wild  
We're going into the wild  
I can swim,  
I can swim, I can swim
