

Tore My Heart Out

[Tremonti](#)

show your will and do your part
or be blind right from the start
take your time and do it well
cause the fallout can be hellgo and find, find the one
till you find the will is gone
hide in the shadows who would know
and the fire only growsyou tore my heart out
took it all away
is it so bad now?
is it too late?lookng back who do you love?
see whats taken, what is lost
gain a courage only when, we are faced with the world again
go and find, find the one, who defines all there was
going back we reach again
we decided we reached the end
