

On a Snow Covered Street

Wayne Haun

VERSE

Candlelight shimmers through frost covered glass
storefronts call to me as I slowly pass
smiling at every holiday scene
here on a snow covered street
Music and laughter are filling the air
blinking lights dance on the tree in the square
beauty unfolds in a white, wintry theme
here on this snow covered street
CHORUS
Wrapped in this magical moment in time
a new Christmas memory is coming to life
I'm lost in this enchanting, wonderful dream
here on a snow covered street

VERSE

Drawn by the glow of a December moon
captured by love at the first sight of you
all I have wished for is standing with me
here on a snow covered street
