Voices In the Dark

Jeremiah

There's voices here in the dark
I have to beat them before it gets dark
I hear them now it's true
They're coming even out of you
I just have to pretend that they're not there
But I'm never gonna go anywhere
I even know they're there
I don't care ha ha ha ha ha ha ha ha ha ha ha...
I can't say as I never heard them before
