Conform to Reality

Ultimatum

We live in a world that's topsy-turvy.
Conscious seared and dead. Disintegration of morality.
Politically correct instead.
Conformity, Conformity,
Conform to reality, Conformity, Conformity,
A standard there must be
Absolute truth a total mystery
What's it matter anyway,
when told that life is but an accident,
all thread of hope will fray.
Conformity, Conformity,
Conform to reality, Conformity, Conformity,
A standard there must be
Truth is not relative, it's defined by
God. If truth is not always the truth,
foundations will crumble.
Commands are given for our good, not to suppress your life.
Without 'em we live in total chaos,
time will prove me right.
Conformity, Conformity,
Conform to reality,
Conformity, Conformity,
A standard there must be! (2x)
