

# Starving

## Jazzatron

Tell me where have you been  
I was starving the other night  
    I was starving today  
Tell me where have you been  
I was starving the other night  
I was starving 'cause I needed youI just can't wait another day  
    I want the daysies and the butterflies  
    And nothing else can make me stay  
        It only drives me all insane  
All insaneI just can't wish another day  
    I want a riot and a heart of bliss  
    Too many things can make me stray  
And drivin'all my friends awayI just can't dream another day  
    I want the roses and the buttercups  
    And everything that's beautiful  
        It only tears me all appart  
            All appart
