

Echoes in the Dark

Milow

Last thing I did for me
Echoes in the dark
I wouldn't worry
This is how we are
Was the last time that I saw you Open in the rain
Only now ,can I tell?
if you want it ,a liar
You never said it to me deep
Would have been any thin for you?
Never asked me too We leave the light on
Echoes in the dark
Losing connection over and out If you need it just text me
You never said it to me deep
Would have been any thin for you?
Never asked me too If you want it ,just ask it
If you need it,then ...
If you lookin' for another
If you want it,a friend You never said it to me deep
Couldn't been any thin for you?
Never asked me too
