

# Let's Go Feel The Music

## Simon Curtis

Let's go feel the music  
I'm heading to the floor  
I'm climbing straight to the top  
I'll keep you wanting more  
You'll have to beg me to stop  
There's not a question of if I'm the king of my crop  
Cause I'm the thing that pulls the string oh don't you know  
Let's go everybody circle around  
Turn it up a little louder  
Let's go everybody rockin' it now  
Wanna hear you scream and shout it  
Let's go feel the music  
Let's go feel the music  
Let's go feel the music  
Make the party sing  
Let's go feel the music  
Let's go feel the music  
Let's go feel the music  
Make the party sing  
We're gunna show you now what we've been talkin' about  
Came here to shut it down  
Without a care in the world  
Wont need the mission fall  
We'll bring to the show  
You know that we gun claim it never shame it  
Takin' control  
Let's go everybody circle around  
Turn it up a little louder  
  
Let's go everybody rockin' it now  
Wanna hear you scream and shout it  
Let's go feel the music  
Let's go feel the music  
Let's go feel the music  
Make the party sing  
Let's go feel the music  
Let's go feel the music  
Let's go feel the music  
Make the party sing

Let's go everybody circle around  
Turn it up and feel the music  
Let's go everybody rockin' it now  
We came to feel the music  
I feel it  
You feel it  
I want to feel the music  
Let's go everybody circle around  
And let the party sing  
ohhhh  
Let's go feel the music  
Let's go feel the music  
Let's go feel the music  
Make the party sing  
Let's go feel the music  
Let's go feel the music  
Let's go feel the music  
Make the party sing  
Make the party sing  
Let's go feel the music
