

# Days Like This

Shaun Escoffery

I can smell that fresh coffee beginnin' to brew  
From the swing on this deck with a heck of a view  
    Of the sun burnin' steam off  
    The lake and the dew off the ground

    The weatherman's callin' for clear as can be  
        And I believe that he's right  
    'Cause my stubborn left knee is feelin'1 awful dang good  
        And that's just what I'm needin' right now

    So don't bring me the paper, don't turn on the news  
        If it'll fire me up, keep it away from my fuse  
    If the world's goin' to hell, let it go, I'll just blow it a kiss  
    Don't wanna think about things like that, on days like this

    Some days are just made for a big change of plans  
        So bring me your body and baby let's dance  
    You're all that I want on my mind and my hands right now  
        Right now baby

    So don't bring me the paper, don't turn on the news  
        If it'll fire me up, keep it away from my fuse  
    If the world's gone to hell, let it go, I'll blow it a kiss  
    Don't wanna think about things like that, on days like this

    No don't bring me the paper, don't turn on the news  
        If it'll fire me up, keep it away from my fuse  
    If the world's gone to hell, let it go, I'll blow it a kiss  
    Don't wanna think about things like that, on days like this

    Days like this  
        Not today baby
