

# **Floorkiller**

## **Disco Trash Music**

Someone pretends to hold it back

Even they don't know that they gave their best

When they gave up other beliefs

When they're on the topEven though they got more than much to give

Bit by snakes but I won't give it upCome down, confront all my visions

Come downStill I'm hunting the demonsI used to love to see the reflections

Of my shadows, now it seems like a threat

We need less as we swallow each otherStill I'm hunting the demonsCome down, confront all my visions

Come downCan't wait for the signs to stop flashing in my head

Can't wait for the sounds to hold me back

How it felt through that time, I can't explain

But I hope you try to see seduce me, hold and caress meCome down, confront all my visions

Come down
