

# Luckiest

## Manic Drive

When I look at my life  
I see the hurt I try to hide  
Through the pains that brought me tears  
I've learned a vital thing this year It was meant for me  
I am the luckiest  
It was meant to be  
I am the luckiest  
It was meant for me  
I am the luckiest I've seen sin at its best  
Corrupting minds leaving lives a mess  
But these strains that I once despised  
Have made me stronger and more wise You were meant for me  
Every time I slip and lose my grip  
You were meant for me  
You take my hand keep me from falling in  
You were meant for me  
You pick me from the dirty I keep tripping in You were meant for me  
I am the luckiest  
It was meant to be  
I am the luckiest  
You were meant for me  
I am the luckiest
