Starts With One

Shiny Toy Guns

Starts with one, I can't feel
It's all in your mind anyway
I can't heal
Make me feel this wayNow there's two, I can't see
I've never felt this way
I can't feel
Anything anywayLet's show them
The only way
Let's show them
Our hearts, heartsOnly three, I can't see
To get enough anyway
I can't speak
Nothing to say anywayLet's show them
The only way
Let's show them
Our heartsLet's show them
The only way
Let's sew up
Their heartsDistorted light moves in
Or am I mistaken?It feels so, feels so
Feels so cold
It feels so, feels so
Feels so coldThere goes today
It slowly fades, slowly fades away
Here comes today
Never go, never go away, no
