

# Missing Link

**Randall Bramblett**

I barrel thru the ragged sky  
One dark cloud at a time  
I'm comin down from the heavens baby  
Just to bring you some sunshineI am the missing link  
In your winding chain  
We got a soul connection  
When you call my nameSometime I come and go so fast  
I don't leave no fingerprints  
This time I'm gonna slow it down for you baby  
Just to keep you in suspenseI am the missing link  
In your winding chain  
We got a soul connection  
When you call my nameDon't try to understand it  
'Cause it don't make no sense  
I got a strong attraction to you baby  
And you don't have no defenseI am the missing link  
In your winding chain  
We got a soul connection  
When you call my name
